

A photograph of a tortoise, likely a Galapagos tortoise, resting on the ground. The tortoise is positioned in the lower right quadrant of the frame, facing towards the left. Its shell is a mix of dark brown and light tan colors, with distinct scutes. The tortoise is situated next to a large, reddish-brown rock on the left side of the image. To the right of the tortoise, there are large, green, leafy plants. The ground is dry and covered with small rocks and sparse vegetation. The lighting suggests a sunny day, with shadows cast on the ground.

Animal	Tartaruga (Macho)	Tamanho	15cm
--------	--------------------	---------	------

Peso **0.54kg**

Cor **Preto / Amarelo**
